TABLE OF CONTENTS

No. 1, January, 1956

Studies in Histochemistry I. Determination of Nucleic Acids in Microgram Amounts of Tissue. JESSE F. SCOTT, ALBA P. FRACCASTORO AND EDGAR B. TAFT 1

Histochemical Demonstration of Noradrenaline in the Adrenal Medulla of the Hamster. OLAVI ERÄNKÖ 11

Preservation of Phenyl Phosphatase Activity During Paraffin Embedding. JÖRDEN B. DALGAARD 14

Protein Binding of Azo Dyes by Tissue Homogenates. ALEXANDER M. RUTENBURG AND ARNOLD M. SELIGMAN 17

A Stricter Interpretation of the Ferric Ferricyanide Reaction with Particular Reference to the Demonstration of Protein-Bound Sulphydryl and Disulphide Groups. C. W. M. ADAMS 23

Specificity in the Aldehyde-Coupling Reactivity of Nucleated Erythrocytes. M. A. LESSLER 36

Phosphorylation as a Histochemical Procedure. BENJAMIN E. LANDING AND HAZEL E. HALL 41

Factors Influencing the Determination of the Intracellular Distribution of Isocitric Dehydrogenase in Rabbit Cerebral Cortex. JAMES A. SHEPHERD 47

A Histochemical Specific Thionin-SO_2 Reagent and Its Use in a Bicolor Method for Deoxyribonucleic Acid and Periodic Acid Schiff Positive Substances. P. VAN DUIJN 55

Some Aspects of the Mechanism of Orcein Staining. HAROLD M. FULLMER AND R. D. LILLIE 64

Staining Properties of Brain Tissue Before and After Treatment with Potassium Dichromate. J. M. F. LANDSMEER AND R. GIEL 69

Histochemical Titles from Current Literature 79

Books Received 83

Letters to the Editor 84

Obituary 85

Announcement 86

No. 2, March, 1956

Esterases of the Conductive System of the Heart. LUIS M. CARBONELL 87

Studies on the Connective Tissue of the Cock Comb I. Histochemical observations on the Ground Substance. J. A. SZIRMAI 97

A Simple Method for the Study of Intracellular Acid Phosphatase in Hela Cells. MARY H. GREEN AND ETHEL L. VERNEY 108

Influence of Hormones upon the Distribution of Alkaline Phosphatase in Mouse Adrenal Cortex. JOHN M. ALLEN AND JUDITH J. SLATER 112

The p-Dimethylaminobenzaldehyde Reaction for Pyrroles in Histo-

chemistry: Melanins, Enterochromaffin, Zymogen Granules, Lens. R. D. Lillie 120
Esterase of the Salivary Glands. M. S. Burstone 131
Studies on Arthropod Cuticle III. Ash Analyses and Microincineration. A. Glenn Richards 140
A Histochemical and Chromatographic Study of Normal and Atheromatous Human Arteries. Anne E. Henderson 152
Metachromasia; Chemical Theory and Histochemical Use. Maxwell Schubert and David Hamerman 158
Histochemical Titles 189
Books Received 194

No. 3, May, 1956

The Mechanism of the Marchi Type of Methods, for Visualizing Degenerating Myelin. Model Experiments with Pure Compounds. M. Wolman. 195
The Effect of Mucolytic Enzymes on Tissues Stained with the Periodic Acid-Schiff Technique. D. Eidinger and A. Ghosh 200
The Replacement of the Acid Hydrolysis of the Feulgen Reaction by Bromination. Tibor Barka 208
Cytochemical Studies of Mitochondria in Leptomonad Form of *Leishmania donovani*, the Kala-Azar Parasite. A. Gula, C. K. Pyne and B. B. Sen 212
Histochemical Demonstration of Aminopeptidase. M. S. Burstone and J. E. Folk 217
Structural and Chemical Studies on the Connective Tissue of Marine Sponges. Jerome Gross, Zelda Sokal and Malcolm Rougvie 227
A Chemical-Histochemical Evaluation of Acid Phosphatase Activity in Human Skin. Guiseppe Moretti and Herbert Mescon 247
Histochemical Localization of Specific Oxidative Enzymes I. Tetrazolium Stains for Diphosphopyridine Nucleotide Diaphorase and Triphosphopyridine Nucleotide Diaphorase. Emmanuel Farber, William H. Sternberg and Charles E. Dunlap 254
Histochemical Localization of Specific Oxidative Enzymes II. Localization of Diphosphopyridine Nucleotide Diaphorase and Triphosphopyridine Nucleotide Diaphorase and the Succindehydrogenase System in the Kidney. William H. Sternberg, Emmanuel Farber and Charles E. Dunlap 266
Histochemical Localization of Specific Oxidative Enzymes III. Evaluation Studies of Tetrazolium Staining Methods for Diphosphopyridine Nucleotide Diaphorase, Triphosphopyridine Nucleotide Diaphorase and the Succindehydrogenase System. Emmanuel Farber, William H. Sternberg and Charles E. Dunlap 284
Histochemical Titles from Current Literature 295
Book Review 299
Books Received 299
Letter to the Editor 300

No. 4, July, 1956

Partition of Adenosine Triphosphatase in Intracellular Fractions of Mature and Immature Rat Cerebrum. WILLIAM K. JORDAN AND RUTH MARCH 301
An Improved Method for the Schultz Cholesterol Test. A. F. WEBER, M. G. PHILLIPS AND J. T. BELL, JR. 308
Chromosomin and the Feulgen Reaction. FREDERICK H. KASTEN 310
Phenolic Oxidative Activities of the Skin: Some Reactions of Keratohyalin and Trichohyalin. R. D. LILLIE 318
An Acid-Soluble Component of the Nucleolus; the Cytochemical Specificity of the Lead Acetate Reaction. C. J. TANDLER 331
The Influence of Cold Inanition and Insulin Shock upon the Histochemistry of the Adrenal Medulla of the Mouse. JOHN M. ALLEN 341
Histochemical Localization of Specific Oxidative Enzymes. IV. Soluble Oxidation-Reduction Dyes as Aids in the Histochemical Localization of Oxidative Enzymes with Tetrazolium Salts. EMMANUEL FARBER AND CONNIE D. LOUVIERE 347
Histochemical Localization of Specific Oxidative Enzymes. V. The Dissociation of Succinic Dehydrogenase from Carriers by Lipase and the Specific Histochemical Localization of the Dehydrogenase with Phenazine Methosulfate and Tetrazolium Salts. EMMANUEL FARBER AND ERNEST BUEDING 357
Carbohydrate and Carbohydrate Metabolite Utilization by Enzyme Systems of Mouse Brains and Liver Mitochondria. H. G. DUBUY AND M. L. HESSELBACH 363
The Mechanism of Nile Blue Staining of Lipofuscins. R. D. LILLIE 377
Attempts at Histochemical Demonstration of Ethylene Groups with Particular Reference to Staining Properties of Hair Cortex. BENJAMIN H. LANDING AND HAZEL E. HALL 382
Studies in Histochemistry XLII: Further Studies on the Determination of Succinic Dehydrogenase in Microgram Amounts of Tissue and Distribution of the Activity in the Bovine Adrenal. DAVID GLICK AND SOM N. NAYYAR 389
Histochemical Titles from Current Literature 397
Books Received 400
Announcement 401

No. 5, September, 1956

Proceedings of the Histochemical Society 403
The Effect of Ascorbic Acid on Metachromasia in Solutions of Protein and Acid Polysaccharide. K. N. UDUPA AND J. ENGLEBURT DUNPHY 448
Histochemical Methods for Acid Phosphatase. G. GOMORI 452
Stability of the Feulgen-Deoxyribonucleic Acid Absorption Curve *in Situ* with Variations in Nuclear Protein Content and Other Factors. FREDERICK H. KASTEN 461

Two Types of Acidophils in the Anterior Pituitary of the Frog and their Relation to the Periodic Acid Schiff Reaction. ROBERT ORTMAN 470
Comparison of Histochemical and Biochemical Methods for the Polysaccharides of Cartilage. WALTER JOEL, YANNA F. MASTERS AND M. R. SHETLAR 475
Reversal of Cyanide Blockade of Aldehyde Reactions by Reoxidation with Periodic Acid. R. D. LILLIE 479
Identification of Cytoplasmic Basophilia (Ribonucleic Acid) by Fluorescence Microscopy. LUDWIG VON BERTALANFFY AND IVAR BICKIS 481
Histochemical Titles from Current Literature 494
Book Review 497
Books Received 498
Letters to the Editor 498

No. 6, November, 1956

SYMPOSIUM ON THE TURNOVER OF CELLS AND CELL CONSTITUENTS

Morphologic Methods of Determining Cellular Doubling Times. C. C. LUSHBAUGH 499
Significance of Ribonucleic Acid and Deoxyribonucleic Acid Turnover Studies. L. S. SIMINOVITCH AND A. F. GRAHAM 508
The Mobilization and Turnover Times of Cell Populations in Blood and Blood-Forming Tissues. J. M. YOFFEY 516
Cell Turnover in Epithelial Populations. C. E. STEVENS HOOPER 531

The Value of Fundamental Studies of Staining Reactions in Enzyme Histochemistry, with Reference to Indoxyl Methods for Esterases. S. J. HOLT 541
Studies in Histochemistry: XLIII. The Design and Use of Improved Apparatus for the Preparation and Freezing-Drying of Fresh-Frozen Sections of Tissue. BENJAMIN W. GRUNBAUM, JOHN R. GEARY AND DAVID GLICK 555
A Histochemical Investigation of Neurosecretory Substance in the Rat. A. HOWE AND A. G. E. PEARSE 561
Cellular Localization of β-Glucuronidase in Rat Tissues. WILLIAM H. FISHMAN AND JOHN R. BAKER 570
Histochemical Titles from Current Literature 588
Letters to the Editor 592
Indexes 593
